FIND YOUR PLACE

GET INVOLVED

Bring your curiosity. Share your skills. Help the next idea take shape.

1 JOIN A TEAM

Grades 5-8: drive, build, code, use CAD, test, keep the engineering notebook, or lead outreach. Inquiries are reviewed for available roles.

2 VOLUNTEER & MENTOR

Support events, coach, chaperone, or share your engineering and programming skills with students.

3 PARTNER & HOST

Bring a workshop, robot demonstration, or family STEM event to your school, library, or community.

4 DONATE & SPONSOR

Support shared equipment, learning materials, mentoring, and community STEM programs.

Help the next idea take shape. Contact NSF to discuss support, sponsorship, or partnership opportunities.

SHARE TIME. EXPERTISE. RESOURCES.

REACH OUT

LET'S CONNECT

For students, families, educators, community hosts, and supporters.

FRISCO, TEXAS / SERVING NORTH TEXAS

EST. 2026 / FRISCO, TEXAS

NINJAS STEM FOUNDATION

FROM CURIOSITY TO CREATION

A question today.
A creation tomorrow.

Student robotics, shared discoveries, and hands-on STEM learning for our North Texas community.

LEARN / BUILD / SHARE

OUR PURPOSE

CURIOSITY INTO ACTION

Established in 2026, Ninjas STEM Foundation helps students turn curiosity into practical knowledge, creative work, and service. Through robotics, mentorship, and community learning, we build, test, explain, and share ideas.

LITTLE ELM PUBLIC LIBRARY

September 12, 2026

Students and families built VEX creations, explored basic coding, and drove robots with our student presenters.

FOLLOW ROBOTEX NINJAS

Our student team began in 2023. Scan for team history, season results, and robot videos.

COMPETE. TEACH. INVENT. GROW.

LEARN & BUILD

FIND YOUR PATH

COMPETITIVE ROBOTICS

VEX IQ 276C TO V5RC 91276C

Student-led engineering, coding, testing, documentation, and teamwork. See real design decisions and setbacks in our online engineering notebook.

Our VEX IQ journey
3 World Championship appearances
Back-to-back Division 3rd Place finishes
2x TX Region 5 Teamwork Champions
2x TX Region 5 Robot Skills Champions

Regional titles: 2024-25 and 2025-26 seasons.

ROBOTICS TEAM MENTORSHIP

For developing VEX IQ and V5RC teams. Learn design, coding, and troubleshooting while students remain responsible for their own competition work.

Ask us about mentorship for your team.

MORE WAYS TO LEARN

STEM Academy (in development) - structured, multi-session robotics, coding, engineering, and AI literacy; planned after-school learning for Grades 5-8.

Innovation Lab (active) - research, science fairs, invention, and prototyping for Grades 5-12. Potential patent guidance is subject to practitioner availability and a separate engagement.

BUILD SKILLS. TEST IDEAS. SHARE WHAT YOU LEARN.

HOST DISCOVERY

NSF ROBOTICS DISCOVERY

FREE COMMUNITY ROBOTICS PROGRAMS

Hands-on experiences for schools, libraries, PTAs, youth groups, and family events. We adapt the activities to your audience and venue.

ROBOTICS DISCOVERY DEMO

30-45 MINUTES

Live robots, student presenters, and Q&A for classrooms, assemblies, and science nights.

BUILD, CODE & DRIVE WORKSHOP

60-90 MINUTES

Hands-on building, basic coding, robot operation, and engineering challenges.

FAMILY ROBOTICS NIGHT

90-120 MINUTES

Activity stations for children and families, with robot driving, building, and student mentors.

STEM SHOWCASE / FESTIVAL

FLEXIBLE FORMAT

An interactive booth with robots, driving activities, and conversations with student mentors.

BRING DISCOVERY TO YOUR COMMUNITY

Email us with your audience, date, and venue. Scheduling depends on volunteer and equipment availability.
