Photo & Video Permission

Robotics Team Mentorship Program | Parent/guardian choice for a minor

OPTIONAL — Please complete a separate form for each child. Declining does not affect mentorship.

Student's full name: _____	Participating Team / Group: _____
Parent/guardian: _____	Email: _____
Mentorship dates: _____ to _____	Date signed: _____

01 Choose the media permission

I authorize Ninjas STEM Foundation (NSF), its authorized educational programs, and authorized representatives to record and publicly use the media selected below in educational presentations, Foundation/program websites and social media, newsletters, impact reports, and approved outreach or sponsorship materials. The participating team's name may accompany approved media, if authorized. This form does not grant permission to an independent team or third-party sponsor to reuse the media.

☐ I permit photographs only; I do not permit video or audio recording.

☐ I permit photographs and video recordings, including my child's voice within those videos.

☐ I do not permit photography, recording, or public use of identifiable media of my child.

Choose one option. If none is selected or the choice is unclear, NSF will not proceed without clarification.

02 Names, dates, and earlier media

☐ Do not identify my child by name in captions or narration.

☐ My child's first/preferred name may be used: _____

No student name will be used unless the second option is selected. Full names, personal contact details, and social-media tags are not authorized. Consent covers media recorded during the mentorship dates above; approved media may continue to be used after that period unless permission is withdrawn.

Earlier media (if any) is included only if explicitly identified here by date, event, or file:

_____

03 Safeguards and withdrawal

NSF may crop or format approved media without misrepresenting the student or activity. This permission does not authorize sale, unrelated commercial endorsements, independent sponsor reuse, livestreaming, or AI-generated likenesses. NSF will respect a student's request not to be photographed or recorded. No payment is expected for the permitted uses.

I may withdraw permission by emailing robotexninjas@gmail.com. NSF will stop new use upon receipt and make reasonable efforts to remove the media from channels it controls within 10 business days. Already distributed print materials and third-party copies may not be recoverable. Withdrawal does not undo prior authorized use or require destruction of records that must be retained.

I confirm that I am the student's parent or legal guardian, have authority to make this choice, and understand the options selected. This is media permission only, not a release of unrelated claims.

Parent/guardian signature: _____	Date: _____

NSF use: Received by/date _____ Permission register updated ☐ Restrictions checked ☐

Before use, NSF separately verifies any necessary team-identification approval and permission from the photograph/video owner. This form does not grant copyright in third-party media or record that consent existed before signing.
